Entered at the Postoffice, Morrisville, Vt., as second-class matter

L. A. Kelly of Montpelier gets the position of insurance commissioner, made vacant by resignation—provided he will not be a candidate for re-appointment. Wonder why a fellow wants to accept a job like that with a string attached to it? If a man is good enough to be appointed for an interim he ought to be big enough for a longer term.

Talk about the primary being a good thing! Ye gods; there was more mixing up and "discombobulating" in marking tickets than you ever heard of in the good old times. Democrats voted for republicans—so many of them that they forgot that they had a ticket of their own to mark, and as a result but a small fraction of that party found their way to their ticket. What's the use of this sort of voting? Then again, what's the use of putting the state to the big expense the primary incurs? Think it over.

A large delegation of representative business men from Montpelier, of the sort who believe in the liberal religion, broke away from business cares a while last week and wended their way to Burlington, where they heard a discourse on religious matters according to their way of thinking. A good example this. If men, whatever belief, would occasionally break away from life's perplexities and turn their mind to higher thoughts they and the world would be the better for so doing.

The state democratic platform adopted some suggestions that people of all parties should give consideration. Among them was cutting down expenses in various departments and the abolishing of some offices. For instance, the publicity board, sergeant-at-arms, state board of health, state engineer, charities and probation and bovine tuberculosis, all of which could be considered. And then there is that monstrous state expense—the 16 municipal courts. All of them, or nearly all, might well be cut out. There would be a big saving in that direction.

And now they have discovered a way to dispense of the troublesome fog—to auto drivers. Down in Pittsburg a thin coating of oil was spread over the water of the Monongahela river, which prevented the warm water and cold air coming together, thus preventing the fog. This, if it proves a success, may suit auto drivers, but will not be welcomed by those who have put in a summer's hard work in growing a garden. The latter wants to see some good results from their work before a frost hits it. And the fog is the best agency, aside from old sheets and blankets for keeping off a frost.

FROM OTHER PAPERS

The Waterbury Record says the State Fuel man, H. M. Jones, is right on his job and people will have coal if they do not start burning too early.

The Brattleboro Reformer says Ohio is to take a referendum, on straw vote on beer and wine Nov. 7, but she cannot get much through a straw.

The Caledonian says the "daylight saving" is over for this year. That some say it is good and others don't. That it is good for the man who wants to play, but not for the farmer who has to work longer hours.

The Rutland Herald says "Don't Blame the Primary," and then proceeds to prove that it is the fault of the electorate, not the law. It avers that "it isn't a perfect matter, but it certainly permits a full and free choice of candidates, according to the voters' will. If they don't vote or don't vote right, we cannot blame the law. Some one else is to blame."

There is no better looser or more loyal townsman in the newspaper ranks in Vermont than Brother J. E. Apoll of the Hardwick Gazette, who is now booming his successful opponent, for town representative, for speaker. He says: "He is an experienced parliamentarian, was a member of the House in 1915, of the Senate two years later, and since that time has held office as state librarian and as tax commissioner. He was a member of the committee on the revision of laws and in charge of the work during the process of printing. During these years, Mr. Morse has established an extensive acquaintance, which would be of material benefit to him. These and other qualifications should entitle him to a leading rank as a candidate for the speakership."

There is no diminishing in the interest in golf playing. Just so long as the weather continues good there'll be playing on the local course.

L. C. A. NOTES

The various classes have recently selected their officers for the year.

The Boys' Athletic Association is well under way. A meeting has been held whereat Van Ness Lilley was elected as secretary and treasurer and Charles Finnegan as manager. The dues were also decided upon at this meeting. A most successful season is desired and expected and the cooperation of the townspeople would be very much appreciated.

A box party and dance will be given at the academy on Friday of this week for the benefit of the senior class.

The members of the Current Events Club are planning to present the school with a picture which they will buy with money left over from last year's organization.

The school garden was very productive this season. It has supplied the home economics department with an ample quantity of vegetables to give them practice in canning. These canned goods will be used in serving warm lunches to the students during the winter months.

were got out and a ride up the side of the mountain; such lovely views. Some boast of the Alps and Yellow Stone Park and Ireland, her Killarney lakes, but no prettier views can be found than those on our mountains in their lovely dress of many colors, with the farms scattered all along her sides and good farms if they are upland farms. They are hard to beat and fruit and apples are plenty on the high land, but our farmers don't care for these orchards as they should. We called and looked over the large barn that the Delano brothers have built, showing what Vermont boys can do. They kindly showed up around and treated us to apples and sweet cider. Then we finished the homeward trip to a supper that our hostess had prepared and griddle cakes and some of their famous maple syrup. Then the good-byes were said and they carried me down to the old home, after we all agreeing not to let so many years go by again without spending a day together.
